OBJECTIVE

Passion for entrepreneurship from a young age, and curiosity to solve every problem, have led Harish to a path to accomplishments. A self-survivor, who has begun his journey in the work field for Ten years, has now successfully established a few businesses across an IT sector, manufacturing, and prefab industry. He is derived from the passion for self-learning, And abundant exploration in various fields. Also, pursuing knowledge from different intellects has always been his plus point to be successful.

A motivated person, who started up Geexu with no funding, has proven to be inspirational. 'Standing up in life, he believes that this statement has the potential to generate the spark to achieve something in our life. He stood up for self-education, he stood up for working simultaneously, he stood up to establish a start-up, and he is still standing up to create a big difference.
